

When I fall down and get a bump,
My mommy comes and sees.
She gives a kiss, and we say this:
"God bless my boo boo, please!"

I've got a little bellyache.
My tummy's doing tumblers!
It does a dip and double-flip.
It **growls** and **roars** and **rumbles!**

God gives the gift of family fun
So everyone can see
This kind of love comes from above.
God bless my family!

My brother makes me belly laugh.
With him, it's fun nonstop!
"Let's climb this tree, just **you and me.**
I'll see you at the top!"

Whenever I can be with you,
That's when the **fun begins**.
On days we play, I love to say,
"God bless my greatest friends!"
