Noah's  
~~Gloomy~~  
JOYFUL  
Ark

It may have been a *gloomy* ark  
beneath the clouds that swirled,

before God sent the heavy rain  
that soon would flood the world.

OR...

The creatures must have left with **glee**.

Giraffes **pranced** out the door.

God safely brought them to this place—  
a new land to explore!

God promised no more floods like that.  
He longed to show His love.  
He sealed His promise with a sign—  
a rainbow high above.

# Join the animals, make some noise, and find some JOY!

This new look at Noah's ark imagines how the animals might have felt on that one-of-a-kind journey. Maybe they felt a bit **gloomy** to see the rain clouds, but they must've been **joyful** to be safe and sound on the ark!

This rollicking story encourages readers to **roar, bark,** and **hee-haw** along with the animals. And when the rainbow appears, children will be reminded that even on their gloomy days, they can look for God's love!
